Key to Brands and Calibres

As far as we know the watches and calibres, to which our special forms round correspond, we indicated these next to the drawings of the glasses. Unfortunately in many cases only the case manufacturer and not the watch brand is known. In this list you will find the watch glasses for these brands as they are contained in the catalogue. Further references and supplements will always be appreciated by the wholesale trade and the manufacturer.

(F)

Marques de montres

Lorsque nous connaissons les marques et les calibres des montres pour lesquels nos verres ronds spéciaux ont été conçus nous les précisons avec nos propres références. Malheureusement dans la plupart des cas nous ne connaissons que le nom du fabricant de boites mais par la marque de la montre. Dans la liste vous trouverez, groupés pas marques, les verres de montres correspondants et qui figurent dans notre catalogue. Grossistes et fabricants vous seront reconnaissants des compléments d'information que vous pourrez leur fournir à ce sujet.

(D)

Markenschlüssel

Soweit uns die Uhrenmarken und Kaliber, für welche die Rundglas-Sonderformen passen, bekannt sind, haben wir diese bei den Gläserzeichnungen angegeben. Leider ist in vielen Fällen nur der Gehäusehersteller und nicht die Uhrenmarke bekannt. In dieser Liste finden Sie nach Marken zusammengefaßt die für diese Marken im Katalog enthaltenen passenden Uhrgläser. Für Hinweise und Ergänzungen sind Großhandel und Hersteller jederzeit dankbar.

(E)

Marcas y numero de calibre

En la medida en que hemos conocido las marcas y calibres de los relojes que llevan cristales redondos de formas especiales, se han dado a conocer los dibujos de estos cristales. Desgraciadamente, en muchos casos sólomente se conoce el fabricante de la caja, sin saber cuál es la marca del reloj. En esta lista, Ud. puede encontrar sintetizado de acuerdo a las marcas, los cristales para las marcas de reloj que contiene el catálogo. Estas indicaciones y complementos son siempre de gran ayuda para el mayorista y el fabricante.

(S)

Märkestabell

Såvida fabrikat och referenser är kända för oss, till vilka våra rundglas-specialformer är passande, har dessa medtagits i tabellen. Tyvärr förekommer i många fall att vi inte känner till urens märke och referenser, därför att vi samarbetar endast med beottillverkaren. Glasen är i tabellen ordnade märkesvis.
