

# JEWELLERY, FINDINGS, CHAINS & SOLDERS

## BALLS, BEADS & DECORATIVE ITEMS

Take a look of our large range of beads and silver decorative items in a great variety of colors, shapes and sizes

- Create your own designer jewellery
- Manufactured without any seams, so that the bead stays strong and does not split under pressure
- Metal beads bring visual impact to your designs
- The most complete selection around means you'll find the perfect bead to quench your inspiration; from sterling silver to glass and semi-precious beads
- See associated items below for a complete range of beading tools and equipment that you just can't do without

**BOLT RINGS**

Cousins UK- Finest Italian Quality

The basic type of fastening for a necklace or bracelet; consisting of a hollow loop with an internal spring operated catch, which is retracted to release.

- Available in traditional 9ct & 18ct yellow, white, rose and silver
- Gold plated and rolled gold available for you to stock, which is handy as your customer may not want to pay the current precious metal findings prices
- Gold plated: Decorative electro flash plated in time while worn will discolour
- Rolled gold: This is a traditional process invented in the 19th century in which a sheet of gold is laminated to a brass. The two layers of metal are heated under pressure to fuse them together. This is then rolled to make a thinner sheet, which is used over the bolt ring. Although not solid gold, this method produces items that wear well over time

# COIN MOUNTS

Cousins UK- UK Made

Large range of 9ct coin mounts in all sorts of sizes and designs. All coin mounts are made with a high quality workmanship in mind. Our coin mounts are very secure and designed with simplicity and elegance, so you can easily insert and remove coins from the mount yourself.

To insert your coin into the mount first open and remove the jump ring, then gently pull the mount apart to insert your coin. Once the coin is in place, re-align the two little loops at the top of the mount and secure the mount closed by replacing and closing the jump ring.

Inside Diameters of Coin Mounts (Approx):

- Full Sovereign, Ø21mm
- Half Sovereign, Ø17mm
- 1/10 Kruger, Ø15.5mm
- 1/4 Kruger, Ø20mm
- 1/2 Kruger, Ø25mm
- Guinea, Ø22mm
- £2, Ø27mm
- £5, Ø33mm

**EARWIRES & SETTINGS**

Cousins UK- UK Made

Ear wires are usually for drop earrings and can also be referred to as a hook wire or safety wire fitting. These earring fittings either hook or screw lock through the ear and hang down behind the lobe.

- Large selection of styles available in 9ct gold, silver, and plated
- They have the advantage of not requiring butterflies, which can be fiddly or easy to lose
- Safety wire fittings also have a snap shut closure for extra security
- Also available here are ear settings which pearls or gemstones of various types can be mounted onto

**4 Claw, Double Gallery Settings**

Cousins UK- UK Made

Earwires - Settings - 4 Claw - Double Gallery

- Sizes: Ø3.5, 4, 4.5, 5 & 6mm

Code	Description	UOM	Price
J4423	Pin Protector On Chain	PACK*10	£10.80

# RING CLIPS

## Ring Clips

Cousins UK - UK Made  
Ring Clips - 9ct - Rolled Gold (RG) - Silver

- Reduce the size of your rings simply & easily
- Simply fold the wings of a ring clip around the inside of your ring and you can reduce the size of your ring by between 1 & 4 sizes, the amount is easily adjusted
- Just measure the width of your ring you wish to tighten & select the matching clip from our range
- The ring clip does not have to match the width of the ring as long as the claw is long enough to grip the ring securely
- The "mm" sizes are not the ring clip width, they are the recommended ring width size. If you have a thicker profile ring, a larger ring clip may be needed

Available in:  
• 9ct Yellow  
• 9ct White  
• Rolled Gold (RG) (sterling silver base)

• Sterling Silver

Sizes: 2mm to 13mm (recommended ring width size, not clip width)

### Necklet Safety Chain

Cousins UK - UK Made

Safety Chains - Necklet

Common necklet safety chains feature two lengths of chain fitted with centre bolt ring and two end jump rings.

- Light Weight
- Medium Weight
- Heavy Weight

Available in:

- 9ct Yellow
- Rolled Gold (RG) (sterling silver base)
- Sterling Silver

Code	Description	UOM	Price
J3997	9ct (Light) Yellow	EACH	£6.86
J3998	9ct (Medium) Yellow	EACH	£7.50
J3999	9ct (Heavy) Yellow	EACH	£9.93
J4001	RG (Medium)	EACH	£1.17
J4000	Silver (Medium)	EACH	£1.50

### Watch Bracelet Safety Chains

Cousins UK - UK Made

Safety Chains - Watch Bracelet

For added security when watch bracelet clasps fail or become loose.

Available in:

- Gold colour
- Silver colour
- Ring & hook fitting
- Pack of 10 pieces

Code	Description	UOM	Price
J4002	Gold Colour Watch Safety Chain	PACK*10	£10.50
J4003	Silver Colour Watch Safety Chain	PACK*10	£10.50

## SCROLLS

Cousins UK - UK Made

For stud or drop earrings and occasionally also called a "French fitting" or "butterfly", this is the most common form of earring fastening for pierced ears, using a 'post' attached to the earring, which connects with a separate scroll shaped device to hold the earring in place.

- Butterfly Scrolls
- Ear Clutches

### Scrolls

Cousins UK - UK Made

Butterfly Scrolls - Very popular

Most common style for stud or drop earrings for pierced ears.

Finish:

- 9ct Yellow Gold
- 9ct White Gold
- Sterling Silver
- Rolled Gold (RG) (sterling silver base)
- Plastic

Sizes:

- Ultra Light (9ct = 0.02g to 0.03g)
- Light (9ct = 0.05g to 0.07g)
- Medium (9ct = 0.08g to 0.10g, Silver = 0.05g to 0.07g)
- Heavy (9ct = 0.12g to 0.15g, Silver = 0.11g to 0.13g)
- Extra Heavy (9ct = 0.37g to 0.40g, Silver = 0.32g to 0.35g)

\*Weights given are per pair of scrolls

Code	Description	UOM	Price
J3823	9ct (Ultra Light) Yellow	PAIR	£1.75

J12143	Plastic Ear Clutches, Silver Colour	PAIR	£0.40

## SOLDER

Precious metal soldering is a process mostly used by jewellers, watchmakers, contemporary artists and jewellers.

- For the joining of metal
- Solder is also metal, but it is a special alloy manufactured to melt at a lower temperature than the metal it is to be used on
- On heating, the solder melts and flows between the pieces of metal. On cooling the solder solidifies to form a strong bond
- One must use a suitable heat source such as a micro flame unit (see code MFUK30)
- Additives reduce the melting point of the solder, so that it is workable. Hard soldering gives a strong permanent and (when finished), invisible join.
- The technique, which is quick and easy to carry out, is suitable for many metals, including gold, silver, platinum, brass and copper

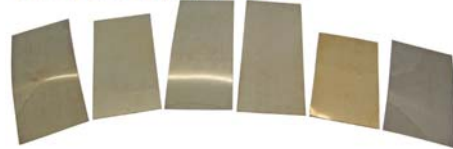

There are two types of soldering, hard and soft:

- Soft soldering and solder is used mainly in costume jewellery or other metal joining, and uses a lead alloy which is inappropriate for jewellers as it gives a cheap look, is weak at the join and spreads impurities into your original precious metal piece
- Hard soldering and solder contains a high proportion of the precious metal it is designed to be used on (for example silver solders contain mostly silver)
- When soldering multiple items a harder solder with a higher melting temperature is required to begin with. This allows further multiple items to be joined using softer solders (at lower melting temperatures) without compromising the first solder joints

**Solder Panels**

Cousins UK - UK Made

Solder Panels - 9ct - 14ct - 18ct - 22ct - Platinum

- Yellow, white & red
- Extra easy, easy, medium, hard
- 2gm panels

Melting Points:

**Solder Syringes, 9ct, 18ct, Silver**

Cousins UK - Hilderbrand, Swiss Made

Solder - Syringes, 9ct, 18ct, Silver

A precious metal solder, checked for consistent quality. The carat value, melting and flow points conform to the highest standards. Supplied in a practical syringe dispenser, the cap can either be unscrewed for larger applications or pricked using a small pin or tweezers for finer application. All solders below are easy flow type.

Melting Points:

- 9ct Red Easy - 735-785°C
- 9ct Yellow Easy - 650-720°C
- 9ct White Easy - 725-735°C
- 18ct Yellow Easy - 700-715°C
- Silver Easy - 705-725°C

# STONES (GLASS) FOR JEWELLERY, WATCH DIALS & CASES

## Clear Glass Paste Stones

Glass Paste Stones - Diamond Style - Round & Square  
Available in a set or as individually graded sizes, round or square for watch dials, watch cases, bracelets, bangles & fashion jewellery etc.

- Range Ø1.00 to Ø3.00mm in grade box
- Glass paste (diamond style)
- Individual sizes: packs of 30

Set includes:

- 150 pieces
- 8 Sizes Ø1mm to Ø3mm
- 2 Sizes Square 2 & 3mm

(Please allow up to +0.10mm manufacturing tolerance).

Code	Description	UOM	Price
S9733	Glass Paste Stone Set	PACK*150	£10.75

J4035	Silver Plated (22mm) Swivel, 1.40g	EACH	£1.43

# T-BARS

Cousins UK - UK Made

Large range plain and fancy in various metals. They are used by your pocket watch customer, linking into a waist coat for the traditional look.

Assay offices do not stamp component parts, including T-bars. If stamped they could be added to a plated chain or alberts to falsely advertise and miss-sell.

Components may be stamped with "9ct" or "375", however this is not an assay stamp.

## Dog Bone
