

Durston DRM Rolling Mill

Manufactured from a single piece of cast iron, the DRM rolling mills have been built for maximum strength and rigidity and a lifetime of rolling. Their maintenance-free bearings combine with a 4-1 gearbox making each roll easier and consistent.

Model	Wire Maker DRM W130 E	C100 Mill	C130 Combination Mill
Article Number	999 7235	999 AXX	999 HAC
Product Weight	36.8KG	29KG	45.3KG
Product Length	335mm	360mm	410mm
Product Width	220mm	200mm	220mm
Product Height	365mm	320mm	365mm
Gearbox	5-1 gearbox	4-1 gearbox	5-1 gearbox
Number of Grooves	11	9	11
Max Sheet Thickness	-	5.5mm	6mm
Roller Type	Wire	Combination	Combination
Roller Diameter	60mm	50mm	60mm
Roller Length	130mm	100mm	130mm
Side Extensions	4, 3, 2, 1.5mm	4, 3, 2, 1.5mm	4, 3, 2, 1.5mm
Max Wire capacity	8mm	7mm	8mm

Good to know

A top quality wire rolling mill with the benefit of side extensions. The rolling mills are dedicated to wire rolling and so do not have a flat milling area for sheet rolling. A side roller incorporates four shallow half rounds giving your rolling mill even more versatility

The DRM range of rolling mills is one of the best-selling series of mills. It has proven over the years to be a real workhorse in many jewellers' workshops and factories. The 'C' in C100 stands for 'combined' enabling you to mill both metal sheets and metal wires.

Combination rolling mill enabling metal sheet rolling and metal wire rolling. An extension side roller incorporates four shallow half rounds giving your rolling mill even more versatility.
